

# Technology ERATE RFP Details

## July 1, 2017 – June 30, 2020

**This document can and will change until December 15, 2016.**

1. LOCAL AND LONG DISTANCE TELEPHONE
  - a. Single year or multi year proposals are acceptable.
  - b. Proposals will be for pure SIP, handoffs. Should be on copper ethernet cabling.
  - c. Proposals will include at least 24 SIP trunks and have line items to add trunks (up to 48) inside the term of the contract.
  - d. All items on the contract must be delineated so that ERATE eligible items and non-eligible items can be clearly defined and separated.
  - e. All proposals are due, in writing or via email by noon on December 15, 2016.
2. INTERNET and WAN services
  - a. Single or multi-year contracts, no longer than 3 years.
  - b. Proposals for an Internet connection.
    - i. Connection may be made at any of the school buildings in the Logan-Rogersville District. Addresses can be found at [www.logrog.net](http://www.logrog.net).
    - ii. Connection speeds for should 50 meg (up and down) and expandable to 100 inside the lifespan of the contract.
    - iii. At least 18 public ip addresses must be provided with the contract.
    - iv. Support and Maintenance need to be clearly defined in the contract.
  - c. Proposals for Wide Area Network services
    - i. should be private and dedicated connections, fiber preferred.
    - ii. At least 1 gig connections, expandable to 10 gig inside the lifespan of the contract.
    - iii. Latency expectations should be described.
    - iv. Support and Maintenance need to be clearly defined in the contract.
    - v. Wireless point to point connections will be considered, but on a basis inferior to fiber connections.
    - vi. Hand offs should be LC Single Mode fiber connections, or otherwise negotiated and clearly defined in the contract.
